

# Unequally Yoked

2 Corinthians 6:14-18

A yoke is a piece of wood that goes across the animal's necks to hold them together while they pull a plow.

If you have one strong animal and one weak animal, the strong one can move fast but the weak one moves slower and they end up going in circles. Paul's doesn't want us going in circles - following Christ while yoked to someone who isn't. It makes it nearly impossible to move forward!
